

2011 CHARLEMONT HIGHWAY SCHEDULE

Summer work on our roads has begun. In fact, we have almost finished sweeping in spite of the rain that has prevented certain kinds of work. In addition to maintenance we will be proposing to the Selectboard that major work, such as paving or crack sealing of certain sections of roads, be undertaken this summer. The work cited below will be subject to weather and cost (the cost of paving products has gone up considerably). We cannot guarantee when or whether the work below will be accomplished, but it is our hope and intention to get this much needed work finished in the summer of 2011.

Zoar Road: Sweep sand, patch, Clean drainage, cut brush, weed whack guard rails, cut shoulders and sweep, mow roadsides. Section paved to underpass.

Rowe Road: Sweep sand, patch, Mow roadsides, cut shoulders and sweep, crack seal.

Todd Mountain: Grade and rake, Add gravel, clean ditches.

Ledge Lane: Grade, rake and bleed.
