Board Action:

Minutes of the previous two meetings were approved.

Carlene Millett requested that the Conservation Commission increase communication with her, and pay closer attention to sign-off requests. The Commission agreed to these requests.

Site visits were planned for Jay Healy, Carol Sumners, and Flores. It was agreed that site visits should be followed by signing off, then by notification of Carlene. Larry Mann added that scheduling of site visits should be on the agenda for meetings.

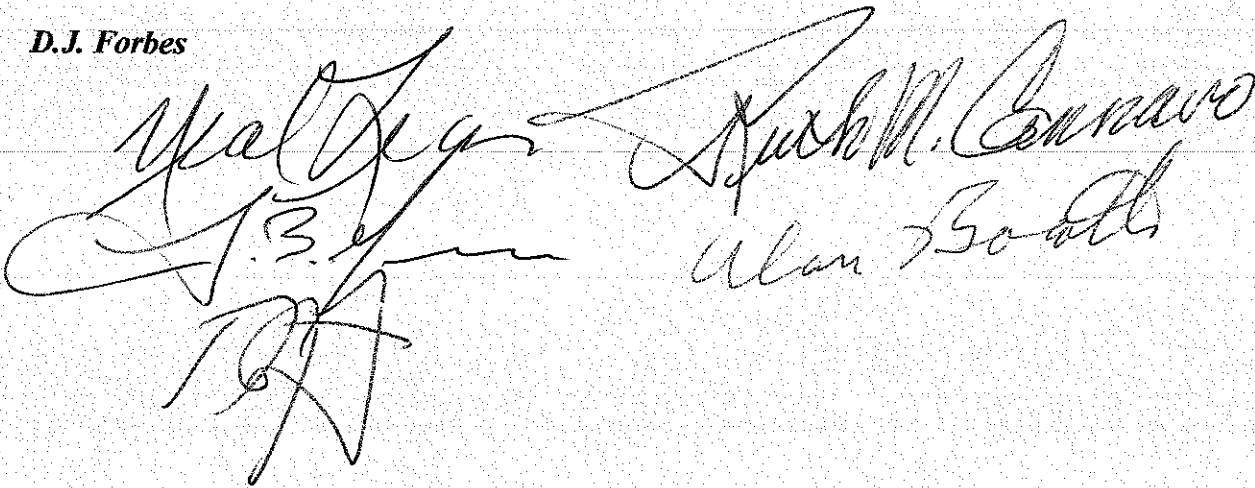

Alan Booth reported that when he made a site visit to Brian DuPree's property, he had already started his project.

Correspondence and mail were reviewed.

Business having been concluded, the meeting was adjourned at 8:05 PM.

Respectfully submitted,

D.J. Forbes
