

Charlemont Conservation Commission
Town Hall
December 7, 2016

Present: Doug Telling, Doug Johnson, Rob Lingle
Absent: Bill Harker
Guests: Doug McDonald, Matt Clark

Called to order at 6:40 pm

Minutes for 9/7/16 and 11/2/16 approved through signatures.

Doug McDonald submitted an RDA for a septic repair at 567 Legate Hill Rd. Telling went to the site and saw that it matched the plans submitted by Lisa Danek Burk. Reviewing the plans it is clear that the work is over 500 feet from the Rice Brook and that an erosion control system will be used. Lingle moved that the Commission issue a Negative Determination, 2. Johnson seconded. Passed unanimously without any abstentions.

Matt Clark submitted an RDA to remove debris along the river deposited by Tropical Storm Irene. Telling noted that the place where Clark wanted to deposit the stones was over 200 feet from the high water mark. Lingle moved that the commission issue a Negative Determination, 2. Johnson seconded. Passed unanimously without any abstentions.

Telling reported that budgets are due soon. Given the increase in MACC membership, he requested that the Commission authorize him to submit up to a \$100 increase after consulting with the Secretary of the Boards on reasonable expense expectations. Johnson moved and Lingle seconded a motion to allow Telling to submit a budget up to \$100 more than last year. Unanimously approved with no abstentions.

Johnson moved and Telling seconded a motion to adjourn. Passed unanimously with no abstentions.

Adjourned at 7:25 pm.

The minutes are not official until signed.
