### Sand Policy

Town of Charlemont  
Sand rule and regulations

These are rules and regulation set in place by the Town of Charlemont to insure that the town's people have a place to get buckets of sand for their walk ways and drive ways.

At no time will any contractor or sub-contractor use this sand deposit for the use of their business.

No more than two, 5 gallon buckets a day are to be taken at one time to insure there will be enough for other residents to fill their buckets.

This sand is not to be used as ballast for weight in cars or trucks during bad weather.

There is no grantee that the shed will always have sand as the needs of the Town Roads always come first.

This is notice also that cameras are in place and will be used to enforce this regulation, a 1<sup>st</sup> offence will be logged, and Police will give you a written warning. A second offence will result in a fine and maybe court action.

These are very hard times we are living in, and we all need to understand that tax money only goes just so far; if we all work together, we can make this work.

Thank you all for being understanding

**Signed:**
