

CONNECTING THE COMMONWEALTH

Sarah Reynolds, Select Board Chair
Town of Charlemont
157 Main Street
P.O. Box 677
Charlemont, MA 01339

Dear Ms. Reynolds:

As you know, the Massachusetts Broadband Institute ("MBI") continues to work to complete our mission of connecting all of the unserved communities in our programmatic geography with broadband service. While we are encouraged that we have made significant progress in the past year toward this goal, work remains for several communities that do not have a visible path before them to broadband connectivity.

In an effort to create solutions for these communities, the MBI has published a Flexible Grant Program Notice of Funding Availability ("FGP") seeking interest from private providers to bring broadband service to our communities. The next step in this process, and the purpose for this communication, is to gauge town interest in receiving proposals through the FGP. In addition to seeking your town's affirmative decision to opt-in to this program, we also inquire as to whether your community would entertain a proposal through this solicitation that might deliver less than 96% coverage. During the prior RFP process, we heard from private providers that MBI's grant allocations may not provide a sufficient subsidy to support 96% coverage in some towns. While we continue to strive to connect as many residents as possible, we also believe that some communities may be interested in partnering with a private entity under revised coverage terms in order to ease the financial and administrative burden on the town while at the same time making the project economically viable for the private provider. While the FGP is focused on providing service through the existing state funding for each town, the FGP does allow for the possibility of a town choosing to invest municipal funding into the project to facilitate enhanced coverage.

We have published this FGP and have included a copy of it for your review. As we hear from interested communities, we will update this FGP with a roster of interested towns. While we will keep the roster of towns participating in the FGP open to allow others to join as time goes on, we are hoping that you could bring this issue up for a vote at your next regularly scheduled Selectboard meeting to provide us guidance on the following questions:

1. Whether the town of Charlemont authorizes MBI to include the town in the Flexible Grant Program Notice of Funding Availability (which makes the town eligible to be the subject of a private provider proposal)?
2. Whether the town of Charlemont is willing to entertain a proposal that offers less than 96% coverage of your community?

Massachusetts Broadband Institute Notice of Funding Availability Through the Flexible Grant Program

NOFA No. 2018-MBI-01

The Massachusetts Technology Collaborative ("MassTech"), on behalf of the Massachusetts Broadband Institute ("MBI"), is issuing this public notice of funding availability ("NOFA") through the targeted Flexible Grant Program ("FGP") (NOFA No. 2018-MBI-01). The FGP will support Last Mile broadband connectivity for certain towns in western Massachusetts that express an interest in being included in this NOFA for the purpose of considering proposals offered by private broadband providers ("Town(s)"). MBI is publicly posting the NOFA and will also distribute the NOFA directly to the Last Mile towns in western Massachusetts that are still evaluating broadband connectivity options. MBI will publish and periodically update, as necessary, an addendum to this NOFA that lists the Last Mile towns in western Massachusetts that opt in to participate in the FGP ("Last Mile Town Addendum").

The goal of the FGP is to provide grant funding to capable communications network companies ("Provider(s)") willing to design, build, own, operate and maintain a communications network in one or more of the Towns that will provide residents with broadband internet access that meets or exceeds the current Federal Communications Commission broadband benchmark of 25 Mbps download and 3 Mbps upload speeds (the "Broadband Project"). The FGP seeks creative, flexible solutions to meet this critical challenge.

The FGP is intended to serve as an open, rolling solicitation for innovative approaches that will permit MBI and the Towns to establish partnerships with Providers to deliver reliable broadband access on a long term basis to as many residents as possible based on available public funds.

Full details on this procurement are included in the downloadable PDF available below.

Subject: RE: New site in place but not yet system of record

Looking into how to transition away for the charlemont-ma.us, it sounds like we should continue to own the domain but not share it publicly going forward.

Peg

Subject: Re: New site in place but not yet system of record

Hi Peg,

Last week you asked "The Town has expressed interest in transitioning to just the townofcharlemont.org. At some point could you outline whether that is possible, if not why, or if yes, pros/cons, etc?"

As I mentioned in my quick response, the degree of difficulty rather depends on what you mean by "transitioning to just the townofcharlemont.org".

The town currently has two domains: charlemont-ma.us and townofcharlemont.org. The first domain stems from the state's recommendation for urls for the first-generation municipal government websites back in 2002. The townofcharlemont.org domain was purchased five years ago during the development of the "new" website five years ago, in 2012.

A good analogy for domain usage is a phone number. Like a phone number, a domain belongs to one organization until it is cancelled or not renewed. After this, the phone number or domain will be reassigned to another organization. The domain, like a phone number, is distributed publicly as part of email addresses and the website itself as a means of contacting the organization.

Moving forward, which domain you use for emails and on materials as contact information is up to the Selectboard, just like an organization with multiple phone numbers can choose which one to give out in any particular situation. If Charlemont wants to transition to only giving out one domain, then Charlemont can do so at anytime.

I strongly suggest that the town keep active both domains, even if it chooses to use only one.

The only downside of the additional domain is cost - a maximum out of pocket cost of \$50 or less (this includes \$12-\$24/year in additional hosting fees for both the email server and the webserver and the cost of the domain itself, at about \$8/year).

The benefits include:

- Historical references to the domain / website will continue to get people to Charlemont. Because the charlemont-ma.us domain has been public for a long time, news articles, government documents, etc will all reference the historical domain.
- High prestige of the old domain, because of the many high level connections to it at the state level and from other municipalities, we rank highly in searches. We will want to keep this domain pointing at our new website, to keep these rankings intact, especially if we want to support economic development. If not implemented correctly, there is a downside for search engine optimization (helping Google to help people find you) if you use multiple domains to present the same content in multiple places but since we use only one website to present the content (the canonical copy of the information), Google ranks us quite highly and gives us a lot of credibility.
- In the current server setup, having multiple domains allows the email administrator and the web administrator to have independent access to tech support and the admin panel on the host.
- The old domain is valuable because it has a high Google ranking. If we do not keep that domain active, it could be purchased by an organization who could then use that association to publicize anything anything (the worst being anti-Charlemont messages, pornography, or something else that is might be unsavory).

Please let me know if you have any follow up questions regarding this inquiry.

All the best,
Cheryl

Re: \$1 lease for use of driveway on parcel #19-043
Location: South portion of parcel #19-043
Description: Driveway adjacent to Town Hall property extending north to end of driveway

Leaser: Berkshire North Apartments
Leasee: Town of Charlemont

Purpose:

Berkshire North Apartments leases to the Town of Charlemont the use of the driveway on parcel #19-043 for \$1 until or unless 1) one party notifies the other and 2) both parties sign off that they are ending the lease. Berkshire North Apartments agree that the Town of Charlemont will indemnify and hold Berkshire North Apartments harmless from and against any loss, damage, suit, judgment or liability of any nature arising out of use of the property.

Special instructions:

1. Berkshire North Apartments agrees to allow the Town of Charlemont to dig under and/or hang materials over the property when it sees fit.
2. The Town of Charlemont agrees to maintain the driveway, ensuring safety and drivability.

Subject: Welcome to the FY 18 MIIA Rewards Program
Attachments: Final MIIA Rewards Overview FY18_10.2.17(2) (5).pdf; FY18 MIIA Rewards Association and Training Partner Program.pdf; FYY18 final rewards status report.pdf

October 6, 2017

Dear Member,

Welcome to the FY18 Rewards Program. Based on your feedback and our analysis of extensive program loss data, we have refocused the Rewards program to assist your community in preventing, reducing and mitigating losses. Here is how the Rewards program has been enhanced:

- Reward Program offerings are designed to target the actual losses your community and the MIIA program have experienced.
- Streamlined Reward Processing – You now have the option to review your Rewards submission documents with your MIIA Risk Manager as part of your regular on-going Safety Committee or other designated meetings. In turn, the Risk Manager will communicate Rewards credit information to Mary Ann Marino, MIIA Risk Management Assistant. Alternatively, you are always free to submit documentation directly to miiarewards@mma.org as you have in past years.
- Identified **Associations and Training Partners** – pre-approved listing of risk management training and conferences. We have pre-approved specific trainings and conferences for MIIA Rewards credit. (Note: We will receive attendance rosters for these trainings and conferences so there is no need to submit documentation.) Credit will be seen on your Rewards Status Report. (See FY18 MIIA Rewards Association and Training Partner Program page on the MIIA website.) This listing will be updated regularly.
- Municipal Loss Targets – **Member Directed training** – pre-approved MIIA Rewards training topics designed to address adverse municipal loss experience. Credit will be given for single-topic training not conference based trainings. (Approved conference and partner trainings appear on the FY18 MIIA Rewards Association and Training Partner Program page on the MIIA website.)
- New Rewards Category – **Member Directed Initiatives** – This category provides members with an opportunity to address a specific MIIA covered risk management issue not otherwise outlined in the Rewards Program. The topic can be either relevant to the individual member or to the membership as a whole. We hope this mechanism will provide members with a new level of flexibility. Please review your ideas with your Risk Manager for final approval.

Note: For the FY18 Rewards Program, MIIA will honor all Rewards documentation covering the period from 7/1/2017 through 10/6/2017 based on the FY17 or FY18 Rewards criteria.

MIIA will offer a Rewards webinar on October 18th at 10:00 to 10:30 a.m. and 2:00 to 2:30 p.m. to introduce the FY18 Rewards Program. Throughout the year, we will continue with monthly Rewards webinars. Our quarterly newsletters will also have a featured Rewards section.

Please remember to access Rewards information, you will need to be registered on the MIIA website. If you have not yet registered, please go to the [MIIA website](#) and click on "Create an Account", which appears under Log In. You will then enter your email. In response, an email will be sent to you with a link . Please click on the link and enter the required information. Login information will be sent to you within one business day. Should you need expedited access please contact Mary Ann Marino at 617-426-7272 x262.

Once again, welcome to the FY18 Rewards Program. The MIIA Training & Rewards and Risk Management staff look forward to assisting you and your employees in addressing your training needs and implementing sound and innovative risk management practices.

If you have any questions please feel free to call us.

Lin Chabra

Overview

Welcome to the FY18 MIIA Rewards Program. FY18 marks the 16th year of the program which has distributed over 29 million dollars back to members in the form of premium credits. We look forward to another successful year of proactive member risk management participation.

The goal of the program is to create a mechanism where members can earn tangible premium credits to support their pursuit of effective risk management strategies. As outlined below, this year's program is comprised of three Reward categories designed to give members flexibility as to how they wish to earn their Reward credits. The three categories are: Training, Risk Management Best Practices and Member Directed Initiatives.

In an effort to streamline the administration of the Rewards program, we are pleased to announce a new process for members to document their participation. In the past, MIIA has asked members to submit formal documentation to receive Rewards credit. If that process works for you, you are free to continue to submit documentation as you have in the past through miiarewards@mma.org. However, this year you may wish to review your efforts with your Risk Manager as part of your on-going interaction at Safety Committee Meetings or similar meetings. After review and approval of your documentation with the Risk Manager, they will update the Rewards database, thus alleviating the need for formal submission of documentary materials. Either method is fine with us, but we encourage you to take a moment to discuss this option with your Risk Manager.

Training

MIIA

MIIA continues to develop and refine relevant municipal training offerings on-site and at the regional level covering a wide range of health, safety, and loss prevention topics.

The specific curricula will vary from year to year based on member needs and emerging issues. The curricula listed on the website will provide an overview of the specific training offered. Registration is via the [Training calendar](#) on the MIIA website. The calendar will provide you with: training topic, name of presenter, date, time and location.

In addition, your MIIA Risk Manager may suggest specific training topics to consider in conjunction with their periodic consultations. This category includes Employee Assistance Program (EAP) trainings.

Seminar Attendance — Tracking and Credit

MIIA tracks attendance at regional and onsite training. Please do not submit any MIIA-related training documentation. Credit is earned for seminar attendance by member, not by the number of employees that attend. Members participating in webinars will receive .5% credit. Credit for MIIA training, if approved, will be applied as follows: Less than 3 hours = .5% and 3 hours = 1%.

MIIA Partner Association Training

In order to maximize your training opportunities, we supplement MIIA offerings with preapproved Association/Partner Trainings. MIIA partners with the Massachusetts Municipal Association (MMA), Massachusetts Municipal Managers Association (MMMA), Massachusetts Municipal Personnel Association (MMPA), Citizens Planning Training Collaborative (CPTC), Franklin Regional Council of Government (FRCOG) and Small Town Administrators Association (STAM) to provide risk management related training to members. Association Trainings must be related to a municipal insurance exposure or liability and they need to be

over

preapproved by Lin Chabra, MIIA Member Services Manager (lchabra@mma.org). The specific list of trainings approved for MIIA Rewards credit is on our website. This list is updated as Partner Association meeting agendas are approved. Sponsoring Associations will provide a list of attendees that will be added to our database so there is no need to submit an attendee list for these meetings.

Terms – Credit for attendance accrues to the member regardless of the number of employees who attend. Credit is assigned by line of insurance coverage and length of training.

Member Directed Training (Specific training topics identified on the MIIA status report. Must be an hour or more and not conference based.)

Documentation should include training title, agenda for training, presenter with hours of training, you may opt to utilize the Member Directed Training Verification Form*

Terms – Credit for Member Directed Training can be achieved in two ways 1. Documentation can be scanned and emailed to miiarewards@mma.org or 2. Express documentation can be achieved by providing documentation to your Risk Manager at a scheduled Safety Committee Meeting or similar forum.

Terms – Credit for attendance accrues to the member regardless of the number of employees who attend. Credit is assigned by line of insurance coverage and length of training.

Risk Management Best Practices

The second category of opportunity available to members is implementation and continued utilization of municipal best practices. Time and experience tell us that consistent and periodic inspection of facilities and equipment, careful record keeping, and effective implementation of safe work practices and policies have a meaningful impact in reducing losses.

Please see the Risk Management Best Practices Summary for a comprehensive listing of Rewards opportunities sorted by line of insurance coverage. This summary will provide a description of the practice, the available Reward credit, and links to sample forms and guidelines.

Terms – Credit for Best Practices can be achieved in two ways: 1. Documentation of the specific Best Practice can be scanned and emailed to miiarewards@mma.org, or 2. Express documentation can be achieved by demonstrating compliance to your Risk Manager at a scheduled Safety Committee Meeting or similar forum.

Member Directed Initiatives

The third Rewards category provides a non-structured opportunity for members to address a specific risk management issue or topic of concern to them not otherwise covered within the MIIA Training curricula or within the Best Practices section. The hope is that this component will provide a mechanism to address specialized topics, emerging issues, or unique training needs of an individual member.

Terms – Pre-approval of concept and amount of Reward credit to be given achieved either by discussion with Risk Manager or formal submission to miiarewards@mma.org. See sample submission form.

Submission Process and Deadlines

Please submit Rewards eligible documentation via conversation with your Risk Manager or via email to miiarewards@mma.org when Training, Best Practice or Member Directed Initiative has been completed. This helps maintain an up to date status of your Rewards effort. **In order to receive credit, all documentation must be submitted by May 31, 2018.**

* Available on emiia.org

Rewards Communication Information

- MIIA Rewards Status Reports* can be requested anytime by sending an email to miiarewards@mma.org.
- Rewards Program and Training updates are communicated through emails and MIIA newsletter *Risk Management Newsletter & Training**.
- Updated training information and Association Partner Training List are on emiia.org.
- All Rewards document submittals should be emailed to miiarewards@mma.org.

Apply for a Community Change Grant Today!

Apply Today!

America Walks is excited to extend another round of **community change micro grants** to individuals and communities interested in improving the public sphere for walking or otherwise helping to make walking more commonplace.

This program awards up to \$1,500 to fund or help to catalyze smaller-scale, low-cost projects and programs that increase the prevalence of walking, expand the diversity of people and organizations working to advance walkability, and help to make walking safer, easier, and more fun for all community members. Advocates must be diligent in making sure that every community member has access to the many benefits of walking and walkability, and it is our hope that these funds can help with that.

Now in its third year, these grants to-date have provided catalytic assistance with **innovative projects across the country**, from maps that help encourage residents to explore their neighborhoods on foot to murals that help to enliven the pedestrian realm to targeted advertising that has helped to get the word out about existing walking programs. We're excited to see what you come up with!

This program is possible with support from partners of the Every Body Walk! Collaborative, the W.K. Kellogg Foundation, and other generous sponsors.

Learn more about the grant program here.

America Walks is excited to extend another round of community change micro grants to individuals and communities interested in improving the public sphere for walking or otherwise helping to make walking more commonplace. This program awards up to \$1,500 to fund or help to catalyze smaller-scale, low-cost projects and programs that increase the prevalence of walking, expand the diversity of people and organizations working to advance walkability, and help to make walking safer, easier, and more fun for all community members.

Now in its third year, these grants to-date have provided catalytic assistance with innovative projects across the country, from maps that help encourage residents to explore their neighborhoods on foot to murals that help to enliven the pedestrian realm to targeted advertising that has helped to get the word out about existing walking programs. Read reports on the 2015 Grant Awardees (<http://americawalks.org/a-year-of-walking-report-on-the-2015-every-body-walk-micro-grants/>) and 2016 Grant Awardees (<http://americawalks.org/community-change-agents-in-action-a-look-at-our-2016-micro-grant-recipients/>) to get inspired.

What all of these projects have in common in addition to their goals of promoting walking and walkable communities is that they demonstrate the value of even incremental interventions. It is our hope that in addition to their project-specific benefits, these initiatives will help to inspire and empower people working locally by showing them the value and power of getting involved to affect positive change that benefit all community members.
